**SUBJECT:** First Impression Report (FIR) for West Mosul social media civilian casualty allegation (CJFLCC-OIR 15/17)  
**DESCRIPTION:**  
1. CJFLCC-OIR media monitoring for 20 Feb 17 reported a Twitter allegation that civilian casualties had been caused by coalition air attack on a 'flour firm' in West Mosul.  
a. When : Approximately 19 Feb 17.  
b. Where: West Mosl  
c. Casualty Estimate: Nine persons alleged to have been killed or injured.  
d. Additional Information: On 19 Feb 17 Twitter feed @IraqiSMCEn claimed that '9 persons were either killed or wounded as US-led

coalition aviation targeted flour firm at the right side of Mosul.' J34 review of CJFLCC-OIR strike records for that day indicate that while no targets correlate with a 'flour firm', a sugar factory IVO (b)(1)1.4a was struck on 19 Feb 17 (strike number (b)(1)1.4a and (b)(1)1.4a). Analysis of archived strike footage does not reveal any evidence of potential civilian casualties associated with that target.

2. Recommendation. The CIVCAS allegation does not have the potential to be credible.
