CJ33,

Please see below a CIVCAS 5Ws in relation to a recent OSInt twitter post. CJFLCC does not anticipate any further action as this appears to be an tweet with no basis (or another force element's strike).

Who: OSINT TIPPER, Twitter user @sumjup and Amaq Agency

What: Alleged CIVCAS, specifically a report on Twitter and Amaq Agency that 4 women killed and 17 individuals wounded, including women and children, as a result of U.S. airstrikes on 02 November 2016.

When: 0300Z NOV16

Where: Al-Quds neighborhood (no further information received). Al Quds neighborhood is IVO Mosul.

What we know: No strikes were conducted by CJFLCC-OIR on residential facilities IVO Al-Quds neighborhood on 02 November 2016. Three strikes were conducted by CJOC-E during the alleged date IVO Al-Quds neighborhood at (b)(1)1.4a These strikes were terrain denial strikes which cratered roads to protect the Partner forces from possible enemy VBIED attacks. As a result, no structures were struck during any of these strikes; and the strikes had no impact or assessed effects on any nearby structures. There have been no further reports or intelligence reflections indicating that there were civilian casualties in Al-Quds neighborhood following the posting of the Tweet. Intelligence assessments are that Amaq Agency is a known Da'esh run news entity. CJFLCC-OIR is not aware of strikes by CJTF or other force elements on residential facilities IVO Al-Quds on the alleged date, and given the report by Amaq Agency, whether the allegation is a part of Da'esh propaganda.

What are we doing: CJFLCC-OIR does not intend to investigate further and assesses that this report is not credible.

What do we need: CJFLCC-OIR does not require assistance in this matter.
